## SECTION 3

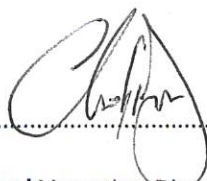

# ENVIRONMENTAL POLICY STATEMENT

It is the policy of the Company to develop and maintain an environmental and caring approach, and to manage all of its activities so as to give benefit to the community at large. The Company will meet the relevant regulations and ensure that the environmental impact is reduced to a practicable minimum.

### TO THIS END THE COMPANY WILL: -

- Reduce material waste wherever possible and where practical, utilise materials and products that are environmentally friendly and can be recycled or reused.
- Ensure that its developments are sympathetic to the environment, paying particular attention to the treatment and disposal of any hazardous or potentially toxic materials to avoid environmental problems.
- Pay particular attention during manufacturing and construction activities to the emissions or pollutants, reduction in noise and general dust, taking the most stringent precautions to avoid health hazards and ensuring that environmental issues are reduced.
- Develop and promote energy efficiency amongst employees.
- Promote awareness of environmental management systems, and encourage active support of all employees to ensure the effectiveness of this Policy.
- Carry out Risk Assessments to establish environmental targets and objectives.
- Set annual targets and objectives in order to continually improve its environmental performance.
- Monitor its environmental performance against its targets and objectives during review meetings and take corrective action.
- Ensure all site activities either undertaken as Principle Contractor or Sub Contractor are covered by a waste management plan ensuring all waste is correctly disposed of by licensed contractors.
- The Policy will be reviewed, at least, annually by the General Manager and Approved by the Managing Director, and is applicable to all operations and premises controlled or occupied by the Company.
