CLEVELAND BRIDGE ENVIRONMENTAL POLICY STATEMENT

It is Cleveland Bridge UK Limited policy to develop an environmental and caring approach and to manage all of its activities to give benefit to the community at large. The company will meet the relevant regulations and ensure the environmental impact is reduced to a practicable minimum.

CBUK ENVIRONMENTAL POLICY OBJECTIVES ARE: -

- Reduce material waste wherever possible and where practical, utilise materials and products that are environmentally friendly and can be recycled or reused.
The effectiveness of the policy depends on the cooperation and active support of all employees. Therefore, roles and responsibilities are detailed in the SHEQ Manual, with additional responsibilities detailed in the Network Rail procedure for work on Network Rail projects and its infrastructure. Provision is made for employees and their representatives to be consulted on matters which affect their environment at work and in connection with any responsibility or duty which may be assigned to them for the purpose of implementing this policy.
- Ensure that its developments are sympathetic to the environment, paying attention to the treatment and disposal of any hazardous or potentially toxic waste materials to avoid environmental problems.
Training, information, instruction and supervision will be provided to ensure activities are carried out with minimal environmental impact.
- Pay attention during manufacture and construction activities to the emissions or pollutants, reduction in noise and general dust, taking the most stringent precautions to avoid health hazards and ensuring that environmental issues are reduced.
An open and honest approach is seen as critical to maintain and improve the environmental performance and as such an open-door policy applies.
- Develop and promote energy efficiency amongst employees.
The Policy together with the Company SHEQ Manual, Network Rail procedure and Register of Legislation and Codes of Practice will be reviewed annually and, where necessary amended to consider new legislation and Codes of Practice. Such amendments or changes thereto may only be authorised by the Managing Director.
- Carry out risk assessments to establish environmental targets and objectives.
This Policy is applicable wherever Cleveland Bridge Limited carries out its operations.
- Set annual targets and objectives in order to continually improve our environmental performance.
- Monitor our environmental performance against the targets and objectives during review meetings and take corrective actions.
- Ensure all site activities undertaken as either principle or sub-contractors are covered by a waste management plan ensuring all waste streams are correctly disposed of by licenced contractors.
