

# WHITE HORSE BRIDGE, WEMBLEY

## Project Name

White Horse Bridge, Wembley National Stadium LUL Station Access Bridge.

## Client

## Main Contractor

Edmund Nuttall Ltd

Programme complete Sept 05

Value £3.2M

Tonnage 820te

## Project Description

This state-of-the-art footbridge that spans railway lines to the new Wembley Stadium has four steel arches, two vertical and two inclined, which were constructed from 40 to 80mm thick steel plate, to form a triangular box shape. The deck was formed from 350te of deck beams supported from hangers attached to the arches.

Each 130te arch section was lifted in a single piece using a 1200te capacity crane during possessions.

The site works for the steel erection was completed in two 29hr weekend possessions and over a two-week period.
